Important Safety Issues:

- This product must be installed by a qualified electrician according to AS/NZS 3000.
- Ensure all electrical mains are disconnected before any installation.
- Modification of this product will void any warranty.
- Havit Lighting does not take responsibility for wrong installation, incorrect use, or use of installation material that does not belong to the system.
- Aluminium and 304SS fittings must not be installed within 5km of any salt water environments.
- All o-rings and seals must be in place correctly to maintain warranty
- This form may be updated at any time due to product improvements, please check online installation form for most current version.

Steps for Installation:

1. Make sure that the electrical circuit is free of voltage (master switch off)
2. Remove screws from top and bottom of fitting and set aside.
3. Remove base plate from fitting.
4. Install base plate to wall in desired location using appropriate screws for application.
5. Seal all holes including cable entry and around screws
6. Connect the cable - use wire with earth; connect the earth first, then live and neutral wire.
7. Fitting is preset to 3000k, to change slide switch located inside base of fitting to desired colour temperature.
8. Reattach fitting to base plate making sure screws are tight to avoid any water penetration.
9. Apply silicon around edge of fitting to prevent any water from getting inside to electrical connections.
10. All connections must be carried out carefully, inspect all contacts before switching back on the electric circuit.

Must be installed by a licensed electrician
