- All o-rings and seals must be in place correctly to maintain warranty
- This form may be updated at any time due to product improvements, please check online installation form for most current version.

## Steps for Installation:

1. Make sure that the electrical circuit is free of voltage (master switch off)
2. Remove Mounting Bracket from fitting by removing screw from bottom of fitting
3. Connect the cable - use wire with earth; connect the earth first, then live and neutral wire.
4. Install mounting bracket in desired location using appropriate screws for application.
5. Slide fitting back over bracket and tighten screws, Be careful not to overtighten as this may cause plaster to crack.
6. Insert globe into fitting
  - HV8069 Models - Align pins of globe into lampholder and gently push globe into place.
  - HV8070 Models - Insert globe into lampholder and twist clockwise.
7. All connections must be carried out carefully, inspect all contacts before switching back on the electric circuit.

## Steps for Changing Globe:

1. When Changing globes make sure not to exceed maximum wattage - Check product label for correct wattage.
2. HV8069 -
  - Grab side of globe and gently pull until globe is dislodge from lampholder
  - Align pins of globe into lampholder and gently push globe into place.
3. HV8070
  - Grab side of globe and twiat anti clockwise until globe can be removed from fitting
  - Insert globe into lampholder and twist clockwise.

## Must be installed by a licensed electrician
