CERTECH 1RU 19" 24 Port Angled Unloaded Patch Panel, with Rear Support Bar

PP24UKANG

DETAILS:

CERTECH 1RU 19'' 24 Port Angled Unloaded Patch Panel, with Rear Support Bar

CERTECH's 24 Port Angled Unloaded Patch Panels have been designed to negate the need for horizontal cable managers, as the 'V' design allows the cables to route straight into vertical cable management systems.

FEATURES:
- The PP24UKANG is made of cold rolled steel and accepts up to 24 Keystone jacks.
- The removable cable management bar is also made of steel.
- The front of the panel is equipped with a transparent holder for port labeling (labels included).
- Suitable for CERTECH Keystone jacks.
- Keystone jacks (sold separately) can be terminated to the cable and then snapped into each individual port on the patch panel.
- ROHS Compliant
- REACH Compliant
- Coating: Black Powder Coated
