

## CERTECH Weatherproof (IP64 Rated) Connector Protector

**CONPRO64**

### DESCRIPTION

The CONPRO 64 is a durable and reliable solution for protecting RJ45 couplers in demanding environments. The housing provides reliable protection against dust and splashes. Dual locking lugs ensure the housing stays securely closed, while two central mounting points allow for easy installation using screws or cable ties

### Specifications

- Material: Weather Resistant Polycarbonate
- Colour: Black

### FEATURES

- Extends cable runs with protection from environmental factors
- IP64 rated for sealing against dust and splashing water
- Compatible with Cat 5e/6/6A using the appropriate coupler
- Equipped with a full rubber liner and dual locking latches for secure closure
- Central mounting points for easy surface attachment
- Supports category, coax, and fiber optic cables
