

CERTECH CABLE TIES

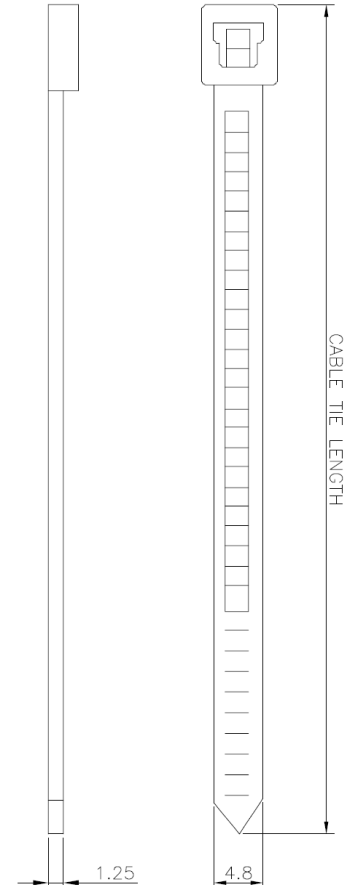

CABTIE-XX-B

DESCRIPTION

Black UV Standard Cable Ties are designed to secure cable bundles, harness wiring components and keep them in place. Coming in a pack of 100, they have a self-locking head on one end and serrated teeth which function like straps on the other end. These two ends work by fitting inside each other in a self-locking mechanism. Our cable ties are used to hold any assortment of components up to 22kgs. They work best under working temperatures of -40 degrees to 85 degrees Celsius. They are mostly applicable for indoor use and possess high tensile strength with low insertion force. They are shorter and thinner than others which makes them perfect for small spaces and light wire management.

SPECIFICATIONS		
Colour	Black with UV	
Width	4.8 mm	
Min Tensile Strength	22 kg (220 N)	
Max Bundle Diameter	83 mm	
Package Quantity	100	
Material	Nylon 6/6 - General Purpose	
Operating Temp	-40°C to 85°C	
UV Protection	Yes	
UL Compliant	Yes	
UL Flame Rating	94V-2	
Lengths	CABTIE150B	150mm
	CABTIE200B	200mm
	CABTIE250B	250mm
	CABTIE250B	250mm
Standards	RoHS, REACH, TSCA COMPLIANT	
Weight (gm)	189 gm	

DESIGNED AND MANUFACTURED TO AUSTRALIAN STANDARDS AND CONDITIONS
