Silicone Pendant

The Silicone One Button Nurse Call Pendant is water and dust proof for infection control, and has an IP rating of IP67 and added antibacterial properties.

The silicone pendant also helps the pendant to stay on the patient's bed or in their hands. Its ergonomic design suits a left or right hand grip and it has a Braille imprint for visually impaired patients. The pendant is backward compatible with most existing nurse call systems.

The Silicone Pendant also comes in a two button variant which can be used to turn on a bed light.

Order Code

Product Code	Description
